## Data Inquiry and Energy Procurement Authorization

This authorization does NOT obligate your organization to execute an energy supply agreement at any point in time, nor does it constitute an agreement to remit payment of any kind to Taurus Advisory Group (TAG) or any other entity.

This authorization DOES enable Taurus Advisory Group to review your organization's utility account data and supply agreements (where applicable) and provide the following services:

- Audit of current energy consumption and expenditure
- Energy procurement strategies that optimize risk management opportunity
- Fully customized RFP/Auction process to fit designated strategies
- Executable energy supply contracts and savings/expenditure analysis of such
- Demo of energy management portal (full access provided free if energy supply contracts are executed through TAG)

If you are interested in taking advantage of the assistance that TAG is pleased to provide, please review the agreement and instructions on the following pages and provide the requisite information, documentation, and signature.

Thank you for your time and consideration. We look forward to the opportunity to work with you.

Best regards,

Nathan Burroughs
